Glasgow, United Kingdom

**Subject: Re: Request**

Dear Dr. Pooria Ghadir

We are delighted to receive your abstract entitled "Stabilization of dredged marine sediment using biopolymer: A case study" for consideration at the International Conference on Bio-mediated and Bio-inspired Geotechnics (ICBBG2025), scheduled to take place May 19-21, 2025, at Arizona State University, in Tempe, Arizona, USA.

We have noted that your wife, Parisa Samadi, is one of the co-authors of the submitted abstract. We understand your intention to participate in person at ICBBG2025 and appreciate your proactive approach in applying for the USA Tourist Visa (B-2).

Please accept this letter as an official invitation for both you, Dr. Pooria Ghadir, and Parisa Samadi to attend ICBBG2025. Your presence and contribution to our conference would greatly enhance the quality and diversity of discussions.

Should you require any additional documentation or assistance to support your visa application, please do not hesitate to contact us at [icbbg2025@gmail.com](mailto:icbbg2025@gmail.com).

We look forward to welcoming you both to ICBBG2025 and eagerly anticipate your participation in the conference.

Best regards,
